

## The Tome of Do this & Do Not Do That In The Age of Corona (That Bitch)

- ◆ **Masks** must be properly worn **upon entering the store. Mouth AND Nose covered**
- ◆ **Maximum** customers in store at any one time: **Two**
- ◆ **Please be respectful** of others in the store and practice safe-distancing of six feet
- ◆ **No Public Restroom at this time**
- ◆ **No food or drink brought into the Cottage**
- ◆ **PLEASE pre-order** your tea, herbs, and other items through email or the ordering page on [moondropherbals.com](http://moondropherbals.com) and plan for a 24 hour turnaround time (if you order in the AM, chances are I will have your order ready for you by noon on the same day). If you have other shopping to do, feel free to browse the store upon pickup of your bulk items. Porch pickup or shipping are also options. Fulfilling large orders takes extra time and can leave other customers waiting outside for excessive amounts of time.
- ◆ If you need to bring a child, please consider shopping during appointment times and/or pre-ordering items. You will need to keep him or her with you at all times and keep them from touching things – merchandise such as crystals, stones, statuary, and other items will not be sanitized and little ones are prone to touch and then put their hands on and near their faces. We want to keep your littles safe.
- ◆ Now, for the REALLY sad part: There will be no samplers available for sniffing or trying for all the obvious reasons. I may be able to send one or two sample paper aroma strips home with customers if there is time for me make one up for you.
- ◆ **Checking out:** Bring items to the table under the mirror by the restricted area near cash counter and studio. I will ring your items up, and take your payment to the register for processing. Orders of \$20.00 or more should be paid by credit or debit. Items under \$7.00 are cash only. In between is either/or. No checks at this time.

**Please be patient, kind, and caring of others. We're all in this together  
Thank You For your Support**
